We Need your Support

On January 12th, 2008 the Bathurst High Phantoms, a high school boys' basketball team were returning from a game in Moncton, when the van they were traveling in slammed into a truck shortly after midnight, killing seven players and an adult.

Since that time a number of facts have been identified that could have prevented this tragedy. It is our hope as citizens of a concerned community that a **Coroners Inquest** be conducted immediately in order to shed light on the events and actions of this unforgettable evening. The public needs to know exactly what happened that night, why it happened and exactly what will be done to ensure it will never happen again.

We are asking for, and need your support to influence the Government of New Brunswick to listen to our cries and take action by calling for a Coroners Inquest into the deaths of these eight individuals.
